# OUR HISTORY

## 45 YEARS OF ENDIAMA'S LEADERSHIP

Since its inception in 1981, ENDIAMA has been at the forefront of Angola's diamond sector, driving economic growth and innovation.

## OVER 100 YEARS OF DIAMOND HERITAGE

Angola's diamond journey began more than a century ago, building a legacy of resilience and global recognition

## A UNITED INDUSTRY, LED BY VISION AND PURPOSE

Angola's diamond industry has been guided by a collective effort, driven by national institutions, local expertise and trusted global partnerships such as DeBeers and Rio Tinto.

## A PREMIER INVESTMENT DESTINATION

Today, Angola stands as one of the most promising destinations for diamond investment backed by reforms, transparency, and a commitment to sustainable growth.

# PARTNERSHIP OPPORTUNITIES – DIAMOND PROJECTS

## MULEPE

Lunda Norte, Lucapa municipality

Area of approx. 175Km<sup>2</sup>

Humid subtropical

**Potencial**

### KEY DATA:

**5–6 million carats** (inferred resource)  
**Average grade:** ~8 cph  
**Estimated value:** ~USD 450/ct

### HIGHLIGHTS:

Previously explored by De Beers  
Premium diamond profile  
Advanced development potential

### INVESTOR OPPORTUNITY:

Near term production potential

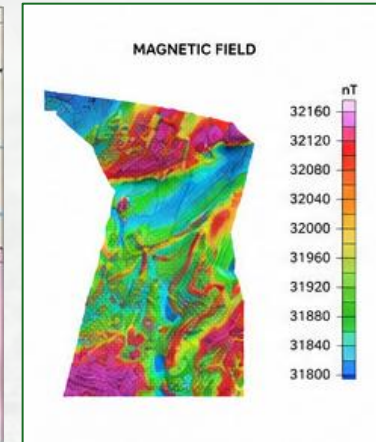

## MOIRIGE

Cuanza Sul, Quibala municipality

Area of approx. 3.093Km<sup>2</sup>

Humid subtropical

**Potencial**

### OVERVIEW:

Multiple kimberlite targets identified  
Confirmed diamond potential  
High proportion of gem-quality stones

### STAGE:

Advanced exploration

### Next Steps:

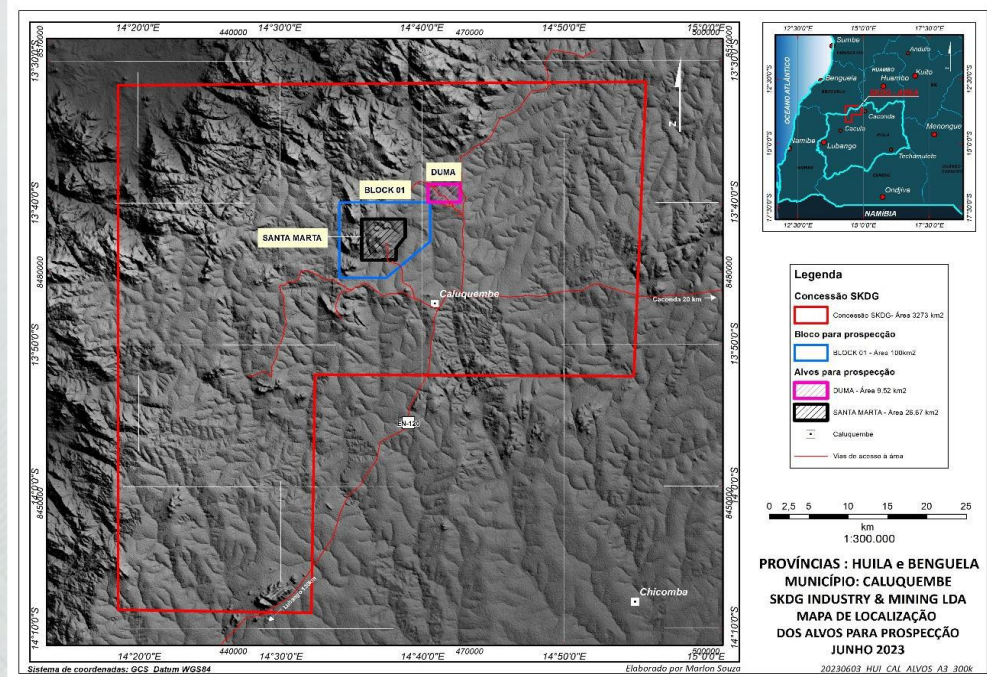

Drilling  
Bulk sampling  
Resource definition

### INVESTOR OPPORTUNITY:

Near term production potential

## CALEPI

Area of approx. 3.269Km<sup>2</sup>

Humid subtropical

Potencial

Huila, Caluquembe municipality

### HIGHLIGHTS:

Strong geological indicators  
Alluvial and primary gold potential  
Early-stage exploration

**INVESTOR OPPORTUNITY:**  
Near term production potential

# PARTNERSHIP OPPORTUNITIES – POLISHING INDUSTRIES

## WHY INVEST?

### INVESTMENT OPPORTUNITIES

- ✓ Developed local diamond cutting facilities to strengthen industry capacity.
- ✓ Flexible investment via independent setup or partnerships/joint ventures.
- ✓ Operate across high-value and smaller diamond segments.
- ✓ Build sustainable local production capacity.
- ✓ Develop local diamond cutting facilities to strengthen industry capacity.

## WHAT ARE THE KEY BENEFITS?

### BENEFITS FOR COMPANIES INVESTING IN THE DIAMOND CUTTING INDUSTRY

- ✓ Tax Incentives (Industrial and Capital gains tax reduction etc.).
- ✓ Trading reduced fees (0,253% sales rate to local factories).
- ✓ Allocation of 20% of National Production to polishing factories, with the possibility to increase.
- ✓ Build sustainable local production capacity.

## HOW TO INVEST?

### REQUIREMENTS FOR SETTING UP DIAMOND CUTTING FACTORIES

- ✓ Company legal documents: letter of intent, bylaws, updated registration.
- ✓ Tax compliance: taxpayer number and non-debt certificate.
- ✓ Nominal list and documentation of identification of the Company's shareholders.
- ✓ Letter from a Bank and/or a bank statement attesting the financial capacity of the company.
- ✓ Letter from the company with information on the existence or not of pending legal proceedings.
